

BRANSON

Precision Cleaning

Integrated Ultrasonic Cleaning Systems IC Series

Branson's IC Series Ultrasonic Cleaning Systems offer a full range of features to meet most precision cleaning requirements.

These compact units incorporate 14 gauge, 316 stainless steel construction, a modern, solid-state ultrasonic generator and 25 or 40 kHz industrial transducers to deliver precise cleaning quickly, consistently and cost effective.

KEY FEATURES

- Microprocessor-controlled for precise process management.
- **Digital temperature control** – variable set point to 69° C+/-4°. with bright digital display.
- **Digital timer** – sets from 1-99 minutes and counts down from reach "cycle start." Includes high visibility digital display.
- **Convenient controls** – mounted in front of the cleaning tank.
- **Complete with accessories** – including a stainless steel parts basket and stainless steel cover with handle.
- 2 year warranty.

Precision Cleaning

TYPICAL APPLICATIONS

The IC Series units, with their greater power per unit volume, can reduce cleaning cycle time or handle more difficult industrial cleaning applications including:

- More densely-packed, smaller parts.
- Heavier or more tenacious soils.
- Investment removal from cast parts.
- Larger machined components.
